

**REMARKS**

Claims 1-17 are pending in the present application. Claims 18-31 were previously withdrawn.

1. Abstract

The Examiner has requested that the Abstract be revised. Applicants have revised the Abstract in an attempt to more clearly define their invention. Applicants respectfully request the Replacement Abstract be entered.

2. Claims 1-17

The Examiner has objected to claims 1-17 for allegedly containing non-elected subject matter. The Examiner is respectfully mistaken and Applicants respectfully request the objection be reversed.

In fact, during a telephone interview on May 6, 2009, with Applicants' representative, Margaret M. Buck, the Examiner agreed to continue her examination without Applicants amending the claims in view that her examination to date did not find any prior art on which to make a rejection nor did she find any basis for asserting unpatentability of the present invention. To that end, this response is submitted as requested by the Examiner.

Accordingly, early reconsideration and allowance is respectfully requested. The Examiner is invited to contact the undersigned if an interview would facilitate allowance of the claims. No other fee than that for the One-Month Extension of Time is believed due; however, the Commissioner is hereby authorized to charge any fee, or credit due, to deposit account no. **503201**.

Respectfully submitted,
